June 15, 2015

USAC Appeals Committee:

This is a request to accept Burke County Library's applications for Telecommunications and Internet Services. The services are provided at three different locations (Waynesboro, Sardis and Midville). The reason for the appeal is letter is to explain why the applications are late. There was a change in staff and the previous Library Manager did not inform the new Library Manager about completing applications or reimbursements for E-Rate. As a result, no applications were completed in FY 2015 in a timely manner. The oversight was brought to my attention in a recent budget meeting. I spoke with Kathy, a representative of USAC and she informed me that I needed to complete the application for FY 2015. Since being informed the applications have been completed and I respectfully request that the applications be accepted. See below the application numbers and names.

If further information is needed please contact me at the information provided below.

Respectfully,

Gwendolyn Jackson
Burke County Library Manager
